We are almost reaching the end of the etwinning program; thus, we would love to hear your opinion! Here are some questions that might help you form an answer: • Did you enjoy the tasks? Elaborate! • Did you encounter difficulties? Elaborate! • Would you recommend younger students to participate in an eTwinning program?

## Marcel A

I really liked this project! Surely, I enjoyed the tasks, because they were not boring, instead, they were too interesting to make. Owing to them, I gained new knowledge about the other countries and their culture. Moreover, my favourite task was the Autbio Poems, because we learned informations about each other. Furthermore, I didn't encounter a lot of difficulties, e-Twinning is a simple and accessible platform to use. The only one that we had to deal with was the communication between some students. Lastly, I would recommend younger students to participate in an e-Twinning programm due to the fact that, as I presaid, it's an effortless, exceptional and engaging platform to use, like its tasks too.

## Lucia, from Italy :)

Hi, this project was very important for me... I've been the possibily of learn new things, new culture and the possibility to learn more english... It makes me feel a lot of emotion: happyness, shame sometimes... Meet new people and talk with them was very good for me, because it was an unique experience, and I hope that I will repeat in the future. I'm happy to have collaborated on the videos and to have contributed with my logo.

I want to thank all the people who collaborate to this project, especially profs.

Thank you to all of you <3

**ANONIMO** 02 GIUGNO 2022 17:38

Hi I'm Andrea from Italy. I think this project was a useful experience, it give me the opportunity to improve my English and meet other guys from other countries. I'm sorry that we have reached the end of this beautiful experience that we shared together. I hope that one day we'll meet again. Goodbye :)

**ANONIMO** 02 GIUGNO 2022 13:20

Hi i'm Ann-Sofie and i found the project was very interesting. I had very fun and the cooking videos were e great idea. I didn't learn very much about the culture from the other but it was al in al great.;

**ANONIMO** 02 GIUGNO 2022 13:20

i'm also from Germany 🇩🇪. I think the Project was inspiring and important in cultural things 🍷. Seeing Students in different countries and speaking different languages was a Great opportunity to get a better view on the world.

**ANONIMO** 02 GIUGNO 2022 13:19

Hi! I am Lennart.

I found it very very nice and the video call was soooo fun!  
Love this protjekt ;)

Hello, I'm Umile from Italy and here it's my opinion. This project was a fantastic experience which I recommend to anyone: it was really interesting to know other guys' different cultures, food

and cities speaking English with them. Sometimes we found some difficulties, especially when we musted meeting, but I think that they are part of the path and they absolutely didn't ruin the project.

Thanks to the teachers and to all the guys, I hope that a day we'll meet again.

Goodbye :)

hi I'm Davide from italy.

I really enjoyed this project. it was really nice to work together with other guys from another country all together. it was a chance to improve my English and meet new people. I am sorry that this adventure is over I would have hoped it would never end. I thank and salute all the students and teachers who took part in this fantastic project.

ANONIMO 02 GIUGNO 2022 11:10

## Elisa from Italy

I think this project was a beautiful experience. It gave me the chance to meet new people, to talk to people who don't know my language, to practice my English. I loved this experience so much and I hope to do it again sooner or later.

I'm going to miss all of this, can't believe it's all over yet. Thanks to all the teachers who have always supported, helped and worked for us to achieve all this.

It was a wonderful adventure and I am happy to have shared it with you guys. :)

ANONIMO 01 GIUGNO 2022 18:58

Hi,I'm Lucantonio from Italy.This project was an unforgettable experience ... thanks to it I learned many things. It gave me the opportunity to discover new cultures, but also to learn the English language. I am very sorry that this experience has come

to an end ... I hope that in my life there are other opportunities similar to this one. Thank you all. Bye :)

Hey man! Great too met you in the call ;) – ANONIMO

**Hi, I'm Sofia from Spain. I really liked this project. It has been very interesting to have interacted with other students and learning English through some very fun and entertaining projects. I would repeat this project again. It has been very interesting, especially the part about the recipes.**

ANONIMO 30 MAGGIO 2022 20:12

## **Lucia (Spain)**

I have loved what we have worked on this platform. It's something different from what we do in other classes and it's a lot of fun. The only thing that has failed has been the video calls due to lack of time. What I liked the most was the work of the recipes. I think it's a very fun way to learn English. I also really liked the logo project because I like to design. What I liked the least was not being able to contact colleagues by video call.

Thanks for everything.

Bye!♥

ANONIMO 30 MAGGIO 2022 20:12

## **DOMI (Spain)**

I liked this project a lot since we have communicated with more people from other places I was delighted that they taught us the food traditions of their country what I liked least was the work of the places because I got very nervous Thanks for everything goodbye!

ANONIMO 30 MAGGIO 2022 14:43

## **Alessia C (from Italy)**

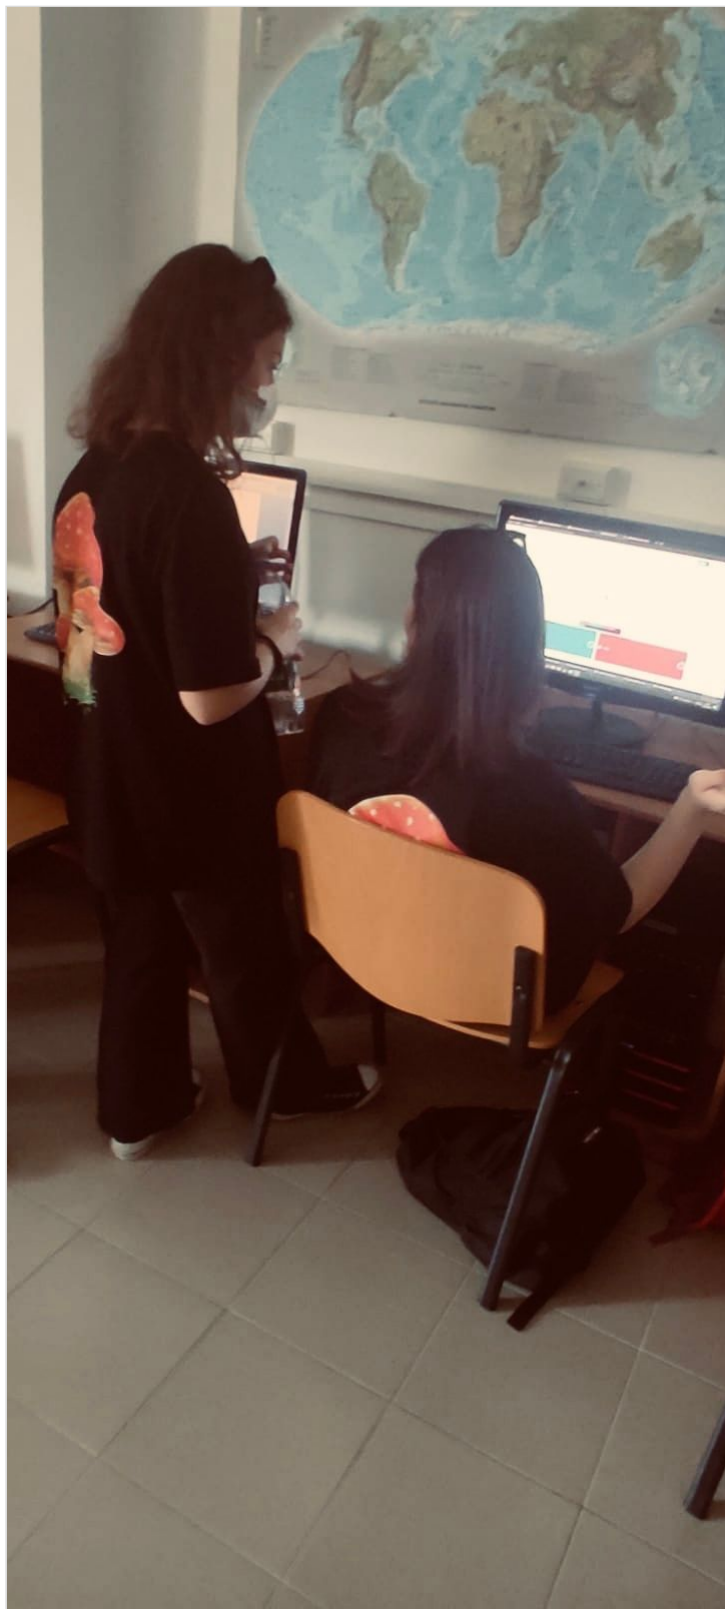

The positive things of this experience are the new acquaintances we have made, the lessons passed in a different way than usual, the work done and the collaboration with people from other countries. I think it was a fantastic experience and I would definitely do it again. I want to thank all the people who participated in this project and especially the teachers who have always supported us

ANONIMO 27 MAGGIO 2022 12:43

## **Alessia P :) (from Italy)**

I think this project has been very useful for my training and to broaden my language; I also think it took me a long time at times, not allowing me to study grammar well but I was still able to do it. Technical problems and sometimes the absence of some pupils were a hindrance but we managed anyway. This project made me mature and understand that outside these school walls there is a world, and I am very happy that our teacher gave me and gave us a similar opportunity. I hope others will come back because thanks to this project my vocabulary has improved a lot and my mentality much more open; I think it has grown a lot thanks to this project. Thanks to all twin-mates!!

**ANONIMO** 02 GIUGNO 2022 11:06

## **Carla C.**

I really liked this project. It was one of my favourite experiences in this course because it helped me to disconnect from the other subjects.

The project was very interesting, I learned more things about the culture of Greece, Italy and Germany. I knew people with the same interest as me and the tasks were fun, such as the recipes videos or the logo project.

I would totally recommend this experience to the other students because it helps you to improve your English level and I agree with Lambrini, I think that we gained our knowledge about the countries and their cultures.

I would like to do more videocalls with them and in the future create a great friendship and meet them in person <3

**ANONIMO** 30 MAGGIO 2022 20:11

## **Alejandro C. (Spain)**

In my reflection on all these projects, since I signed up for this subject I have improved in many aspects, for example in communication, by starting a conversation with people from other countries and I never thought that we would do so many projects and that this year for me has been wonderful and I never expected that we would make a video call with all the people from other countries. The project that I liked the most was this last one about my logo and the one that the truth is that it has gone less so badly. The recipe project was very interesting because in my opinion my mother had to help me and we had problems with the video, but the project was interesting, I have also learned a lot about the culture of other countries thanks to them, the teachers have done a great work on this app. I am very satisfied with what we have done as a group and with this I say goodbye, a very strong greeting. Bye see you soon.

**ANONIMO** 30 MAGGIO 2022 20:12

## **Pedro (Spain)**

Actually, I liked this project because I have learned a lot and to communicate better with people from another country. I also really liked all the projects that we have done because I have learned a lot. I would also like more people to learn better with this Mytwinspace platform. and learn to communicate with people and make friends from other countries :)

**ANONIMO** 27 MAGGIO 2022 10:34

## **Carla B**

I really like this project !! I found it very interesting and I learned a lot of things. I enjoyed the tasks because they weren't boring, the two best for me were the recipes and the towns, because in these two projects I learned about the cultures from your countries. I agree with Dimitris, I think we all enjoyed this project and I could do it again. I would like to have done more meetings because I would like to know more about you. But a part of that,

this experience was very beneficial, I recommend it a lot :) <3

**ANONIMO** 27 MAGGIO 2022 10:33

## **guillee**

In this twining project I have learned many things, I have improved my English, I have learned to use new apps, websites that I did not know. They have helped me improve my work in English. It has been a great experience and I am looking forward to repeating it. my favorite project of this project has been my ideal city because we got to know the cities of people from other countries.

I agree with the comments of the colleagues because they think very well of this project

**ANONIMO** 27 MAGGIO 2022 10:31

## noa :)

In my opinion , the project was a way of travelling to other countries and learning about foreing languages and cultures probably we didn't know before. I wish I could do it egain next year but I would like to do more videocalls with the students at home, in class is too difficoult because of the nois. however, I had the oportunity to talk some minuts with two girls and they look like kind. I really liked it and I think that all students should do it at least once in their lives.

**ANONIMO** 27 MAGGIO 2022 10:29

## Sergio

**I really liked this project, talking to people from other countries is amazing, meeting new people and doing work together on the things we like the most, I have also improved my level of English since we started doing this project**

**ANONIMO** 27 MAGGIO 2022 10:27

## Aitana

I have loved working on this project, it has not been boring at all, it has been a lot of fun, although there are things that I have not liked very much, like that we did not talk much and we could not make video calls, I have loved making new friends... improved and learned things that I did not know, I hope we will see each other or talk next year

**ANONIMO** 27 MAGGIO 2022 10:24

## andreaa :)

I liked interacting with this student in these applications since I wanted to promote the use of English, and being able to communicate with other people in English has made me learn a lot, apart from that we have made many presentations and that has made me not so ashamed and it has helped me to continue learning to pronounce in English

**ANONIMO** 27 MAGGIO 2022 10:31

## Leire

e-twinning has been a great and fun experience, in this way my English has improve in an entertaining way, it has been

very interesting to learn about the customs and cultures of other countries. I hope to repeat this experience.

Although I loved this project, not everything went well since many people did not answer twinspace messages and it was very difficult to communicate, and we were also unable to make many video calls. I hope that for the next time everything is more organized.

In the end it was worth it . We had fun and we also had our ups and downs but we succeeded by overcoming any obstacles in our way.We got the opportunity to meet new people from other counties and just set our imagination free. I think that time went by so quick we didn't realize it's coming to an end . I really hope that the second grade of junior high will continue what we leave behind next year. I also hope that we can do anything similar next year in high school .

I hope so too! – KYRIAKI EFRAIMIDOU

## Dimitris K

In the end, we all enjoyed this journey. But I think It ended too quickly. We did a pretty good job and I would like to thank all the participants in this magic trip. I highly appreciate the dedication that all of us have put into making this project possible. I hope I will not be the last time I experience such joy and love in every part of this project. Also, I would also like to thank Mrs Efraimidou for being such a great teacher and not giving up on us even when there was no hope in proceeding with the project.

*Dimitri, I have not met such students like you for a long time. The project is and was your doing! You have been a great team, and the only thing I am sorry for is not being able to provide more.*

## Konstantina

I found this etwinning program really interesting! I enjoyed all the tasks, especially learning how to make videos and of course speaking english. Also, it was so amazing to be in touch with other students from other countries, learn about their culture and have the same interests. Furthermore, sometimes the only difficulty we had to deal with was the communication, as some students didn't check their messages constantly. However, I would totally recommend younger students to participate to an etwinning program, since i think that the impacts from this experience are only beneficial!!!! 😊

*So, will we keep on working next year on a new one?*

## Christos C

I found etwinning very interesting! The fact that you can talk with people from other countries and learn about them and about their country and culture blew my mind!

Also I really like the fact that you can easily find kids with the same interests as you. The only sad thing is that not all the members of etwinning participate.

## Konstantinos D

I believe that e-twinning is a very good way to meet up and communicate with other students from around the world. ^\_^ I like that I am taking part in this program and I will definitely suggest it to everyone!

ANONIMO 25 MAGGIO 2022 19:41

## Jim K

My experience from e-twinning was great , and I would certainly suggest on others students to participate , due to the fact that we have the chance to meet people from other countries , to recognize foreign cultures that propably we didn't know and because of it is a memorable experience !!

KYRIAKI EFRAIMIDOU 12 MARZO 2022 14:26

## Παιδαγωγικά οφέλη

Το eTwinning προσφέρει πολλές ευκαιρίες για εφαρμογή καινοτομιών και δημιουργικής μάθησης στην διδακτική πράξη μέσα από τις δυνατότητες που προσφέρει. Οι εκπαιδευτικοί αλλά κυρίως οι μαθητές που συμμετέχουν επωφελούνται από τη συνεργασία που έχουν με τα σχολεία των άλλων χωρών, βγαίνουν από τα στενά όρια της τάξης και το μάθημα αποκτά ευρωπαϊκή διάσταση.

ETWINNING

*Yes, some did not participate, but you did and you were mature enough to do it. I am sure there will be more, once they have tried!*

— KYRIAKI EFRAIMIDOU

KYRIAKI EFRAIMIDOU 05 MARZO 2022 19:22

## example

I found the program quite interesting! I liked that I could do something different from what we usually do at school, I loved to write to students from other countries, and I hope I will be able to keep in touch with them.

I could use the foreign language and work on new digital environments. It was a bit stressful as we had to organise ourselves and it was an experience unique to us, but I would certainly recommend it to other students!

ANONIMO 25 MAGGIO 2022 19:41

## Andrew M

I think that the "trip" through the e-twinning project was amazing and as many would say, unique since this is something completely different from what we do at school. Not only that, it is unique, because we had the opportunity to talk with other student, learn for them, their countries, cultures... etc. However, there were some difficulties we had to go through. One of them is the communication problem, because some didn't even check the chat to see what we have to do. Nevertheless, i would not like to suggest this idea to younger students due to the fact tthat this requires organization and maturity that in my opinion students graduating primary school or the first year of junior high school do not have these qualities...

Thank you.
